Description

Newly built finca for rent on the outskirts of the municipality of Santanyi in the south-east of Mallorca.

This beautiful finca was built in 2019 in the typical local style on 430 m² of usable space.

The main house beautifully blends traditional stone architecture with modern design. The expansive windows fill the interiors with abundant natural light.

The heart of the home is an open-plan kitchen with a central island, fully fitted and finished with natural stone countertops. It connects seamlessly to the dining and living areas, both of which open directly to the outdoor spaces.

The property offers four bedrooms in total: three on the ground floor -two of them with en-suite bathrooms - and a fourth on the upper level, also featuring an en-suite bathroom and direct access to a 35m² private terrace.

Practical features include a laundry room, pantry, storage area, and basement. An additional independent bathroom with both a shower and bathtub serves the rest of the house.

The flat, fully enclosed plot offers ample space for agricultural use and the cultivation of various crops. A landscaped garden with an automatic irrigation system surrounds the home, complemented by a swimming pool with sun terrace, a covered porch, and a garage for two cars.
