Description

The complete restoration of a 15th century building has resulted in a fabulous luxury townhouse, whose historic character combines traditional elements with the most modern standards.

The property, located in the heart of Palma's historic centre, offers a constructed area of approximately 698 m2 divided over 5 spacious floors and comfortably connected by a lift.

The property features a large living room, an open plan kitchen fully equipped with top quality Gaggenau appliances, a charming inner courtyard and 5 bedrooms, each with en suite bathrooms with natural marble vanities, plus 2 additional guest bathrooms.

The fascinating private roof terrace is perfect for entertaining and offers a built-in kitchen, barbecue and sunbathing area and Jacuzzi.

The magnificent basement of the house impresses with a wonderful heated swimming pool, gym, laundry room, storage room as well as a garage for 2 vehicles.

High-tech amenities include lift, domotic system (intelligent home automation), central music system, underfloor heating throughout and hot and cold air conditioning. A very special touch is provided by the living walls (vertical gardens) adorning the entrance and patio wall.

This extraordinary townhouse in Palma not only preserves the historical charm of the building, but also offers all modern comforts for luxury living.

Completion of the renovation is scheduled for early 2025.
